Major Duties and Responsibilities:

1. Greet patients professionally and cordially.
2. Familiarize self with each patient and their scheduled treatment in order to be fully prepared to assist the doctor or hygienist.
3. Assist the Doctor or hygienist in all procedures and work as a productive team member. Assists the dentist(s) chair side in procedures and anticipate the dentist's needs at each stage of the treatment procedure by passing instruments, medications, and materials. Actively participate in the treatment procedure by retracting tissue, tongue, and cheeks. Keep the area of operation clear and visible by removal of saliva and oral debris in the patient's mouth by the use of oral evacuation suction tip. Use knowledge of standardized dental procedures in general dentistry to make preparations for and provide chair side assistance successful. Assist hygienists with seating patients, recording probing depths, and taking radiographs.
4. Take radiographic images as directed by the dentist.
5. Take blood pressure for all patients at each visit.
6. Assist patient in completing a medical history form, review and update patient medical history in Dentrix dental software.
7. Chart all appropriate data of patient during exam and treatment into Dentrix software.
8. Help management of patient flow by:
 - a. Seating each patient on time as scheduled and seeing to their comfort.
 - b. Staying with the patient until doctor arrives.
 - c. Having all equipment prepared and ready to use before doctor enters the room.
 - d. Having the room fully prepared for treatment.
 - e. Routing the patient to the appropriate person (reception) after the appointment.
9. Maintain necessary inventory by restocking and seeing that supplies are ordered through the office purchase order system.
10. Perform operatory equipment maintenance through proper cleaning, sterilization, and maintenance of all equipment and instruments.
11. Comply with infection control protocol for autoclaving instruments and clean room for all providers according to the infection control policies.
12. Perform receptionist duties related to scheduling dental appointments: register/check patients in, answer the telephone, update patient information, complete billing in the Dentrix and Intergy software systems, and document the dental visit for proper billing as assigned.
13. Maintain a high level of confidentiality (abide by HIPAA regulations).
14. Cooperate with other health professionals and departments to maintain good working relationships throughout the clinic.
15. Take every opportunity to help educate patients about dentistry and their treatment or procedure.
16. Foster and model a positive empowering attitude towards all patients and staff. Practice friendly, but professional, conversational skills when interacting with the patients and staff.
17. Take a total program approach to all problems and problem solving.
18. Complete paperwork/computer work properly and in a timely manner. Maintain accurate files for patients and quality control.
19. Acknowledge the potential risk of exposure to infectious or contaminated substances such as needles or instruments used in dental treatment.
20. Abide by all clinic policies, regulations, and procedures.
21. Attend and participate in staff meetings.
22. Participate on the Incident Command Team as assigned by management.

23. Be responsible for reporting Adverse Incidents.
24. All other duties assigned by Dental Director.
